Share Savings Accounts

Except as specifically described, the following disclosures apply to all of the accounts. All accounts described in this Truth-In-Savings Disclosure are share accounts.

PAYMENT OF DIVIDENDS

Dividend Rates: The frequency and conditions upon which dividends are paid on all accounts are in accordance with the Bylaws of this Credit Union, state law, and the Truth-in-Savings Act and Regulations. Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period.

For all accounts except term share (certificate) accounts, the Dividend Rate and Annual Percentage Yield (APY) may change at any time as determined by the Credit Union's Board of Directors. For specific dividend rate(s) for each type of dividend bearing account, I will refer to the Rate Schedule, which accompanies this Agreement and Disclosure and which is incorporated by this reference.

Dividend Period: For all accounts except term share (certificate) accounts, dividends will be compounded monthly and will be credited monthly. Dividends on term share (certificate) accounts are compounded daily and will be credited monthly and at maturity. For all account types, the dividend period is monthly, for example, the beginning date of the first dividend period of the calendar year is January 1 and the ending date of such dividend period is January 31. All other dividend periods follow this same pattern of dates. The dividend declaration date follows the ending date of a dividend period, and for this example is February 1. If I close my account before dividends are credited, I may not receive the accrued dividends.

Balance Computation Method: Dividends on Direct Deposit Certificate Builder, Term Share Certificate Accounts, IRA Savings, Money Market, and Premium Money Market Accounts are calculated by the daily balance method, which applies a daily periodic rate to the balance in the account each day. Dividends on all other account types are calculated by the average daily balance method, which applies a periodic rate to the average savings daily balance in the account for the period. The average daily balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period.

Accrual of Dividends: Dividends will begin to accrue on the business day I deposit non-cash items (e.g., checks) to my account.
